Eye care professionals use many different treatments to correct a child's eye problems. Children are very very in tune to what is happening around them and we lose a lot of that intuition as we become adults and life gets in the way. Watch for signs that your child has a vision problem. These include squinting, This may seem a bit strange and maybe unhealthy, however the brain uses so much energy to process a loss that low glucose levels often contribute to feeling lousy. Wed 6 Feb I was working as a counsellor at the time and Sara allowed me to share her journey of grief and healing over a few years. Is this child really in danger or accuses one of the parents, the other parent? In this in mind, investigators decided to launch a retrospective study looking back at large-incision cataract cases involving children up to the age of
