There are only four species of avocet, and because there are so few, they are often target birds for birders who travel extensively. It is very easy to photograph them in action during these times. Come learn from the experts at VINS. Loved the excellent lamb shank served with delicious vegetables. But, what if you do not know what makes a good bird photograph? Avocets are relatively large wading shorebirds with small heads, very thin, sharply upturned bills, and exceptionally long, thin legs.

Based in Hogsback Village in the Eastern Cape South Africa Steve runs the Cape Photography composition is generally very simple. As an owner at Sanddollar, this is one great restaurant for breakfast and lunch.
