Every person has a unique skill set, experience, and knowledge. In this article a Darden professor explains how design thinking helps people overcome this problem and unleash their creativity. Or switch roles.

Ask for help and advice from friends, peers, and people from your personal network. Work backward. Just talk. This can be difficult to manage, however, if conversations among people with opposing views deteriorate into divisive debates.

Innovation is the lifeblood of any successful company today. Throw out the rules to your strengths. But in design thinking, prototyping is carried out on far-from-finished products.
