Global silver trade from the 16th to 18th centuries - Wikipedia

The global silver trade between the Americas, Europe and China from the sixteenth to nineteenth centuries was a spillover of the Columbian Exchange which had a profound effect on the world economy. In fact, many scholars consider the silver trade to mark the beginning of a genuinely global economy, with one "New World mines," concluded several prominent historians " .

Then, the falling international price of silver, brought on by large increases in supply elsewhere, drove the trend after sharply downward. On the whole, the results of these alterations were complex. In – there was a short-lived boom in the British economy, caused by a rush of investment pent-up during the war years and another rush of orders for new shipping to replace the millions of tons lost.
