The United States has inherited the plurality method from Britain, which maintains it as well Australia has broken with the British tradition in favor of more-modern methods. The proponents of PR argued that the British conventions of party government did not suit the circumstances of the new federal polity, and that to the extent that British conventions held sway then due account should be taken of electoral reform sentiment in Britain which pointed the way to the future. Then we simulate the system and show how it tends Proportional Representation Applied To Party Government (TREDITION CLASSICS) produce parties of exponentially decreasing size with always a first, major party with about half of the seats.
