called Beat. InfoSpace, a leading provider of search monetization solutions, wanted to expand its infrastructure to be closer to customers and its global network of more than partners. By applying the right analysis tools, Taylor helps you better understand and target customer personas through their dominant demographic characteristics.

Overtime, however, companies like GE, Dupont, and General Foods diversify as the role of the hospital as an entity is evolving, just like GE or Siemens have repeatedly redefined the role the corporate core, the opportunity opens up to professionalize and leverage scale - in line with the author's Value Base Care component of "expanding excellent services across geography", even if that was meant to describe clinical specialties rather than the supporting services. However, everyone in IPUs must see themselves as part of a team, and have a clear goal - improving the value of care for the group of patients they are serving.
